-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, 10-18, 22-31, and 34 drawn to providing an individualized service to a client based on a stored and known service information and the client's geographic location (cross-referenced from a known postal address), classified in class 705, subclass 8.
 - II. Claims 8-9 and 19-21, drawn to responding to a service request from an unrecognized person at an unrecognized postal location by correlating a geographic position to the unrecognized postal address and then having a service supplier provide service, classified in class 705, subclass 8.
 - II. Claims 32, 33, and 35, drawn to training a service providing business to provide service to clients classified in class 705, subclass 11.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has the separate utility such as providing an individualized service to an individual, wherein the postal address is known (i.e. no distress or service call or unknown postal location and no training). Invention I has the separate utility such as responding to a current call, such as distress call, which includes not recognizing the caller's postal address (i.e. no training and no stored, individualized service to a known postal address). Invention III has the separate utility such as training a service providing business to provide service to clients. See MPEP § 806.05(d).

Art Unit: 3623

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II or III, the search required for Group II is not required for Groups I or III, and the search required for Group III is not required for Groups I or II, restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Beth Van Doren whose telephone number is (571) 272-6737. The examiner can normally be reached on M-F, 8:30-5:00.
